Your CDMO for Animal Health

From formulation to final packaging, we bring pharmaceutical veterinary products to life. With over 65 years of experience, Aprilia Animal Health delivers reliable solutions that support animal health companies worldwide.

Our Capabilities

Aprilia Animal Health provides comprehensive manufacturing and packaging solutions for pharmaceutical and animal healthcare products. Our facilities and expertise cover the full production spectrum — from sterile and non-sterile manufacturing to flexible, high-quality packaging services.

Sterile Capabilities

Our sterile manufacturing capabilities enable the production of complex pharmaceutical products under strictly controlled conditions, including solutions, suspensions, and powders, as well as specialized handling of beta-lactam products.

Our portfolio includes the production of sterile products in the following pharmaceutical forms

-  Sterile Solutions
-  Sterile Suspensions
-  Sterile Powders

We provide flexible filling capabilities for a wide range of sterile dosage forms, supporting different container formats (glass and plastic vials) and filling volumes.

Packaging Services

Aprilia Animal Health offers comprehensive packaging services for different veterinary product presentations and packaging needs, helping clients bring products to market efficiently.

We specialize in primary and secondary packaging, including glass vials, plastic bottles, aluminum tubes and cans, plastic cans, bags, and blister packaging for spot-on. Our packaging lines guarantee reliable, efficient, and scalable packaging solutions.

Non-Sterile Capabilities

As a reliable CDMO partner, Aprilia Animal Health provides flexible and scalable non-sterile production solutions, tailored to diverse formulations and dosage forms.

Our GMP-compliant production facilities ensure the highest standards of quality, safety, and regulatory compliance.

-  Liquids
-  Medicated Premixes
-  Powders
-  Ointments
-  Pressurized Sprays
-  Ectoparasiticides

Product Development and Regulatory Services

Aprilia Animal Health provides end-to-end technical transfer services to ensure seamless veterinary product development and successful commercialization. Our deep industry expertise covers every critical stage, including:

- ✓ Analytical Method Transfer & Validation
- ✓ Stability Testing
- ✓ Manufacturing Process Transfer
- ✓ Scale-up
- ✓ Cleaning Validation

Every project is guided by a dedicated project manager who serves as your single point of contact, ensuring clear communication and coordinated progress from start to finish.

Structured planning, precise execution, and transparent communication keep you informed at every stage, giving you confidence and full control throughout the project lifecycle.

We integrate quality and compliance into every step of your product's lifecycle. From initial stability testing and sterility verification to secure storage and market release support, our team handles all essential regulatory documentation.

By partnering with us, you gain:

- ✓ **Comprehensive Product Lifecycle Management:** Expert guidance from development to launch.
- ✓ **Regulatory Support:** Ensuring your products consistently meet the highest international standards.
- ✓ **Full Compliance:** Total control and confidence for your animal health innovations.

Our Commitment

We are committed to enabling our partners to scale with confidence. Every project is supported by experienced technical teams, robust quality systems, and a pragmatic approach to problem-solving.

Sustainability is an integral part of how we operate and how we shape the future. Over the past decade, our Aprilia facility has transformed its approach to energy and resource management through continuous investment in innovation, renewable energy, and operational efficiency. These efforts have delivered measurable environmental and economic benefits while supporting the long-term sustainability of our operations.

Our focus is clear

-  Flexible Supply Chain
-  Strict adherence to regulatory requirements
-  Transparent communication
-  Long-term operational stability

Aprilia Animal Health, located 30 minutes from Rome, is your partner in sterile and non-sterile production, covering conventional medicines, beta-lactams and ectoparasiticides.
